

Facing Maine Scholarship Program

The annual Facing Maine Scholarship Program was established to recognize the resilience, strength, and accomplishments of a Maine high school student or current college student who has a cleft or craniofacial condition. In celebration of what they have overcome, including hard work in school and dedication to the community, we are offering a \$250 award.

Do you know someone who is eligible? Encourage them to apply! Applications are accepted on a rolling basis throughout the year.

The application can be found on our website at
